1	The application aside from conceding you to track down your children when they're within Geofence range, also functions when your kids go farther afield. Its competence as a trackeris outstanding if you live indensely populated areas like cities or big towns.	Load Test	Nil	Respone time meetthe actual Result	Approved

NFT Test approach						
Load Test						
Scenario Name	Load Test - Location Tracker SAMPLE PROJECT					
Scenario Type	Load Test - Duration 15 minutes					
Scenario Objectives	To Stimulate Python Code(Location Details) and to monitor the performance of Location Tracker SAMPLE PROJECT					
Steps	 We have integrate IBM Watson IoT Platform in order to get this Location details from python program. We also integrate fast SMS service in order to send an alert to guardian or parent 					
Entry Criteria	Test data is set-up. All the Components(software & hardware) is set-up. It is completed successfully.					
Exit Criteria	Response time meets the actual Result. Test completion report is agreed upon by mentors
